FOREVER FOREST
COLLECTION

2025 ver-1

BRINGING NATURE CLOSER

Everyone loves nature in their space, but busy schedules make plant care difficult. Forever Forest changes this by bringing you **REAL** pieces of forest that stay perfect without maintenance.

HOW IT WORKS

We preserve **REAL** forest elements - moss, flowers, and plants - at their peak. These elements neither grow nor die - they stay exactly as beautiful as the day we preserved them, perfect for over 5 years. No water, no care, no fading - just lasting natural beauty.

WHY IT MATTERS

For gifting, this means something truly unique. A premium, conversation-starting piece that brings **REAL** nature to any workspace without maintenance. With a 5+ year lifespan, it creates lasting impact that traditional gifts can't match.

Zero
Maintenance

100%
Real Plants

All
Natural

IMPORTANT INFORMATION ABOUT OUR PRODUCTS

Product Appearance

- Each Forever Forest piece is handcrafted using natural materials. Variations in appearance between pieces are normal and reflect the uniqueness of natural elements.
- The size, texture, and exact arrangement of preserved moss and botanicals may vary between pieces.

Product Performance

- When kept indoors in normal conditions, products maintain their appearance for 5+ years.
- Terms like “forever,” “timeless,” and “endless” describe the preserved state of the botanicals compared to live plants.
- Products are designed for indoor use only and should be kept away from direct sunlight and water.

Care Instructions

- Zero maintenance required - no water or plant care needed
- Keep in indoor environments only
- Avoid direct sunlight exposure
- Do not use water or cleaning liquids
- For dust, use gentle air blowing only
- Avoid pressing or crushing preserved elements
- Small loose pieces are normal with preserved natural materials

Usage Guidelines

- Perfect for indoor spaces including homes, offices, and corporate environments
- Not suitable for outdoor use or exposure to weather elements
- Designed to work well in air-conditioned environments
- Not meant for spaces with high humidity or moisture

Natural Material Advisory

As these products contain real preserved natural elements:

- Each piece will have unique variations in color and texture
- Minor shedding of preserved materials may occur with handling
- Natural cork patterns and moss arrangements will vary between pieces

Note: These variations in natural materials are normal and do not affect product quality or longevity.

GUIDE

Your Guide to Forever Nature
DISCOVER. CHOOSE. TRANSFORM

[⤴ BACK TO TOP](#)

FOREVER
FOREST

Preservation
Process

At the heart of Forever Forest lies our innovative dual-action formula. As nature's seasons change, we step in - first preserving each piece by replacing its organic sap, then using plant-based enhancers to stabilize its vibrant colors. The result? Real moss, flowers, and plants that maintain their beauty for over 5 years, completely maintenance-free. What nature expresses for a moment, we transform into an endless story.

4 STEPS TO FOREVER BEAUTY

HARVEST

Nature's beauty is fleeting, with each bloom destined to fade within months. We capture these perfect moments, preserving beauty that would otherwise be lost to time.

Under precisely controlled conditions, our plant-based formula begins its gentle work. Each piece slowly absorbs the special nutrients that will give it eternal life.

TRANSFORM

REPLACE

This is where science meets nature - as our formula carefully replaces the natural sap within each piece. During this crucial stage, colors are enhanced and stabilized, while natural textures are preserved forever.

Every piece emerges transformed yet completely natural. What was once temporary becomes eternal - ready to bring lasting beauty to any space without maintenance for more than **5 years.**

FREQUENTLY ASKED QUESTIONS

ABOUT THE PRODUCT

Q. Are these plants real?

A. These are 100% real forest elements - moss, flowers, and plants - preserved at their perfect moment.

Q. What are they made of?

A. Each piece contains real moss and plants from forests, treated with our plant based preservation coating.

Q. Will they grow further?

A. No, they're preserved to stay exactly as they are - like a beautiful photo of nature, frozen in time.

Q. Are these colors real?

A. These are natural colors with slight enhancement during preservation to keep them vibrant for 5+ years. We use natural enhancers to maintain their fresh look.

Q. Why do pieces look different?

A. Being natural elements, each piece is unique - just like in nature.

Q. Do they need water?

A. NO WATER NEEDED. Adding water will affect the preservative coating. They're preserved to stay perfect without any water.

Q. What care is needed?

A. Just keep them indoors, away from direct sunlight and water. That's all!

Q. How long do they last?

A. 5+ years when kept indoors in normal room conditions.

Q. What if they get dusty?

A. These are dust resistant, but if you see dust settling, use light air blow. Don't use water or other liquids.

Q. Are they fragile?

A. While they can handle normal use, avoid pressing or crushing them.

Q. I see some pieces coming off, should I worry?

A. Small loose pieces are normal with handcrafted natural materials. This won't affect the product's beauty. Just avoid touching the preserved elements too much.

MAINTENANCE AND CARE

USAGE AND PLACEMENT

Q. Can I keep them outdoors?

A. No, these are strictly for indoor use only. Sun, rain and weather will damage them.

Q. Can I keep them in AC rooms?

A. Perfect for AC environments. They work best indoors.
